

# Northern Silviculture Committee Winter Workshop Overview

February 2017

The NSC's goal:

*Co-operation, Understanding, &  
Improvement of Silviculture Practices*

2017 Workshop Theme:

Common Ground:

Silvicultural Tools & Tactics for  
Diverse Ecosystems and  
Management Goals

## TOPICS FOR THIS YEAR'S NSC WORKSHOP

- Focussed on forest practitioners and planners.
- Based on current and emerging forest issues in BC
- Ideas and feedback from past NSC attendees
- Facilitated by the NSC organizing committee. And;
- Presented by our excellent speakers, generously donating their time and knowledge.

Workshop Issues I:

Practical reforestation strategies for  
climate change adaptation

## Workshop Issues II:

Enhancing:

*silvicultural investments* in our  
forests, &

*effective partnerships* for delivering  
them.

Workshop Issues III:

Better incorporating moose habitat  
into forest management practices.

Workshop Issues IV:

Evaluating growth of our present  
and future forests

Workshop Issues V:

Restoring forests (and productivity)  
to severely-disturbed sites

Workshop Issues VI:

Better managing mixedwoods for  
ecological & operational goals

# Thanks to our Event Sponsors

Enjoy the workshop !  
and we welcome your ideas.
